

New City College is working in partnership with the UK College of Business and Computing (UKCBC). UKCBC is a higher education provider that specialises in providing academic and vocational qualifications (HND, AAT and top-up degree).

Through the partnership, UKCBC offers Pearson BTEC Level 5 Higher National Diplomas in:

**Business  
Computing  
Travel and Tourism Management  
Health and Social Care (Management)**

Students admitted under the partnership agreement between UKCBC and New City College will be New City College students and will, therefore, be eligible to access various New City College facilities such as libraries and student recreation areas in addition to their UKCBC campus facilities.

### **Business**

The Pearson Business qualification has been created with input from academics, employers and subject experts; the resulting course addresses the industry needs by providing students with a theoretical framework from which to develop skills essential for professional success. The course is suitable for students with related work experience or relevant academic background.

### **Tuition Fees:**

£6,150 per year

### **Campus Availability:**

[Wentworth House](#)

[Lords House](#)

[Cricklewood](#)

[Park Royal](#)

### **Progression:**

- Join UKCBC's BA (Hons) in [Business and Management](#) (Bath Spa University awarded top-up)
- Progress to year 2 or 3 of a business-related course at university
- Find work in professions like marketing, business administration or human resource management

### **Computing**

The Pearson Computing qualification has been designed to equip students with the skills necessary to meet the demands of various professional roles in the IT industry. The course looks to prepare students for changes in the industry by providing insight into international computing operation and the challenges of operating in a globalised market place.

**Tuition Fees:**

£6,150 per year

**Campus Availability:**

[Wentworth House](#)

[Lords House](#)

[Cricklewood](#)

[Park Royal](#)

**Progression**

- Join a UK university of higher education college for a one-year top-up degree course in subjects such as Business Computer Systems, Applied Computing or Computer Science
- Progress to year 2 or 3 of a computing-related course at university
- Find work in professions such as Junior Programmer, IT Support Administrator or Junior Network Engineer

**Travel and Tourism Management**

The Travel and Tourism Management qualification provides students with a foundation in the key concepts, understanding and skills required to find professional success in the tourism industry. The Travel and Tourism Management course teaches students skills in effective communication, management behaviour, and planning and the development in hospitality.

**Tuition Fees:**

£6,150 per year

**Campus Availability:**

- Progress to year 2 or 3 of a tourism-related course at university
- Find work in professions such as Travel Consultant, Hotel Assistant Manager and Events Management

### **Health and Social Care (Management)**

The Pearson Health and Social Care (Management) qualification has been created to equip students with the skills and understanding necessary to find gainful employment at supervisory and management levels in the healthcare sector.

UKCBC has partnered with a number of health and social care providers in and around London where students can complete their mandatory Health and Social Care BTEC HND work experience. Throughout the course, students will learn the academic and professional skills necessary to become adaptable workers in the sector.
